Changing Lives, One Visit at a Time

## *Here's Gooey Cecil!*

Gooey was rescued from the San Antonio Humane Society. She's a 5 year-old, blond Shepherd/Terrier mix. Her owners are Ben and Jacqueline Eberle. Ben is an active-duty Marine currently serving at Marine Corps Base Hawaii - Kaneohe Bay (MCBH). Since Gooey Cecil is a "military brat" she has had the pleasure of living in such places as St. Louis, San Diego, Atlanta, and now Oahu!

This is Gooey Cecil's first time as a therapy dog and she is honored to be a member of Tails of Aloha. Because of her loving and irresistible personality, Gooey Cecil Angel was made to help and inspire both people and animals alike. She absolutely love being a member of TOA and looks forward to all the fund and good times in the future!

A 501(c)(3) nonprofit

# Senior Project

Tails of Aloha team members assembled at the Moanalua/Salt Lake Library on September 27 to assist Jerissa Ching with her Senior Project presentation at 5:30 p.m. It was a professional and well rehearsed program Jerissa presented the audience on 'The World of Animal Therapy'. Jerissa also introduced her therapy pet, Mochi, a guinea pig who visits Maluhia's residents on Saturdays.

Many thanks to the staff of the Moanalua Library, the attendees, the team members, Kristen, Jerissa and her parents who were also in attendance. Jerissa has a bright future ahead of her. Don't forget that we will always be here to support you, Jerissa!

# *Warriors of Aloha Update*

Sgt. Steven Cassell and his service dog in training, Brittany (who was adopted from the shelter) will continue their work following their reassignment.

Bart Sherwood of Train a Dog, Save a Warrior, in Texas will be taking over the training of Brittany and Sgt. Cassell.

Good Luck to you both on your new journey!

## *We Are The Power*

All our motives and actions affect our universe in some way. The principle of cause and effect allows us to change ourselves and the world for the better. Our intentions also flow outward in the form of energy, affecting both the people closest to us and the billions of individuals we will likely never meet. It is for this reason, we should strive always to speak, think and behave with great **THOUGHTFULNESS** and **COMPASSION**. The virtues we choose to embody can inspire joy and integrity in the lives of countless people, whether we touch their existence directly or not.

The influence we wield is infinite. We can never really know how our thoughts, emotions, words, or actions will manifest themselves on the larger universal stage because it is likely that the furthest-reaching effects will fall outside the range of our perception. We can only look to the guidance of our conscience, which will help us determine whether each of our choices is contributing to humanity's illumination or setting the stage for unintended troubles. When we are in doubt, we need only remember that the cultivation of altruism inevitably leads to a harvest of goodwill and grace. Motivated by a sincere desire to spread goodness, we will be naturally drawn to those choices that will help us express our commitment to universal well-being.

Nothing you do, however, minor or mundane, is ever exempt from the rules of cause and effect. From the moment of your birth, you have served as an agent of change, setting forces beyond your comprehension into motion across the surface of the earth and beyond. You can exert conscious control over this transformative energy simply by examining your intentions and endeavoring always to promote peace, positive energy, and passion in your ideas and actions. While you may never fully comprehend the extent of your purposefully heartfelt influence, you can rest assured that it will be universally felt.

Mahalo to all the team members who have quietly and effectively made Tails of Aloha a program that cannot be duplicated. It is through your compassion and integrity that we have made such unimaginable strides in changing lives in such a positive manner.

# Wish List

Bird Seed  
Bowls  
Bricks
